SIR,

Flood light installed to light up the Jumma Masjid Minaret Mysore.

(1) I have the honour to inform you that a flood light of 1000 C.P ½ Watt, to light up the Jumma Masjid Minaret, Mysore, was fixed up and was put into service on the 13th October 1936. This light, it is stated, was put up according to the orders of the Dewan.

2. The Superintending Engineer reports that this flood light does not in any way benefit the Masjid and it has to be treated as part of the general lighting of the City. The President, Municipal Council, Mysore, states that its cost cannot be borne by the Municipality, as the work was not done at the instance of the Municipality.

3. The Superintending Engineer states that the cost of flood lighting the dome of the District Office buildings at Mysore is learnt to have been debited to "General Administration" and on this analogy, the cost of the flood light in question may as well be debited to the same source.

4. A bill for Rs.232-15-0 for this work is said to be pending payment.

5. I request the favour of being furnished with your opinion in the matter of debiting the expenditure on this account to "General Administration".
